Brzo pretraživanje
Najbrži pristup servisu iz akademske institucije. Ukoliko pretražujete izvan akademske mreže servis će Vas prepoznati kao "guest user", te Vam neće biti dostupni puni tekstovi. U tom slučaju koristite opciju udaljeni pristup.

Research databases

O servisu
Agregatori su proizvođači baza podataka koji referišu časopise više izdavača, čime ih čine dostupnim za objedinjeno pretraživanje. Njihova prednost je i u tome što u sebe uključuju i časopise manjih izdavača, koji su jedino na ovaj način dostupni.

Nedostatak se ogleda u tome što je za većinu časopisa puni tekst članka dostupan sa vremenskom zadržkom ("delay"). Za neke naslove on iznosi svega 3 meseca, ali ima i naslova gde je čak 24 meseca.

Chapter 8. An exploration of tags assigned to geotagged still and moving images on Flickr

Abstract: Digital libraries have become more distributed and more diverse in their collections. It is common for digital libraries to contain information sources that are multimedia in nature. They provide access to, among others, text and image (still and moving) documents as well as audio files. While digital cameras now capture some metadata automatically, user-assigned semantic tags are popular and indispensable. This includes geotagging, a process of tagging either the latitude and longitude coordinates or the place names of the location where an image was shot. Systematic analysis of geotagged images is timely and necessary because the phenomenon of social tagging and its true potential is new and not fully understood, several million geotagged photographs are uploaded to Flickr each month, and tags are frequently criticized because they are imprecise and not well investigated. Postoji mogućnost da na svom računaru sačuvate u PDF-fajlu određeni broj stranica iz jedne knjige i da one tu ostanu zauvek. To radite tako što uđete online u sadržaj knjige i na desnoj strani kliknete ikonicu „Save Pages“. Otvoriće se prozor koji vas informiše o opcijama koliko i koje strane želite da sačuvate. Ovako sačuvan fajl neće nikad nestati sa računara.

The screenshot shows a digital library interface. On the left, a sidebar lists the contents of an eBook titled "Drosophila: A Guide to Species Identification and Use" by Markow, Therese Ann, and O'Grady, Patrick M. The "Table of Contents" is highlighted. The main area displays a "Save Pages to PDF" dialog box with a "Page Limit" of 40 pages. Below the dialog, a preview of a book page is shown, titled "PART 3: How to use living flies". The page number "187" is visible at the bottom of the page. On the right side of the interface, a "Tools" menu is visible, with the "Save Pages" option circled in red.

Važna napomena: nije dozvoljeno preuzimanje cele knjige!
